

suffix -y (noun to adjective)

Week 10 – Tuesday

Lesson 47

Objective

Learn and practise suffix -y.

Revise

Recall all GPCs learned so far using flashcards.

Teach 10mins

- Teach the -y suffix. Investigate how to make an adjective by adding a suffix to a noun.
For example; **snowy dusty windy**.
- **Decoding** – Explain using mnemonic in Teacher Activities.
- Present the whole words on the IWB or flashcards **sandy rainy** to read. Model pressing the sound buttons to make the phoneme and model merging phonemes together to blend the words (option to have a different coloured sound button for under the vowel).
- **Encoding** – Explain using mnemonic in Teacher Activities.
- Make a phoneme frame on paper or a whiteboard / IWB to show the children how to build the word from a noun to an adjective using suffix -y.
- Build the word **cloudy** with letters. Model writing the word.

Blending for Reading - Read a Sentence

Teacher writes a sentence on the board.

Children have to read in their head, not aloud, then teacher asks for children to support them in reading as they point to each word in the sentence.

Dad does not like sandy feet in the car after a trip to the beach.

It is such a windy day that my hair has been blown curly.

Segmenting for Spelling - Write a Sentence

Children write their own sentence describing weather using a word containing suffix -y (E.g. **windy rainy snowy frosty**), either on whiteboards or paper. Teacher and TAs must ensure the application of correct spelling, Common Exception Words and sentence structure. Optional to provide visual aid or put selection of root words on whiteboard / IWB to help them start sentences.

E.g. The weather is cloudy today, but tomorrow it will be rainy.
