

suffix -en (adjective to verb)

Lesson 76

Week 16 - Monday

Objective

Learn and practise suffix -en.

Revise

Recall all GPCs learned so far using flashcards.

Teach 10mins

- Teach the -en suffix. Investigate what happens when -en is added to an adjective. Adding the suffix -en turns the adjective into a verb meaning to make more / intensify the root word. For example; **soften sweeten toughen**.
- Investigate what happens when suffix -en is added to a noun. Adding the suffix turns the noun into an adjective meaning to be made (or appear to be made) of the root word. For example; **wooden golden woollen**.
- **Decoding** – Explain using mnemonic in Teacher Activities.
- Present the whole words on the IWB **soften** to read. Model pressing the sound buttons to make the phoneme and model merging phonemes together to blend the words (option to have a different coloured sound button for under the vowel).
- **Encoding** – Explain using mnemonic in Teacher Activities.
- Make a phoneme frame on paper or the children how to build the word into a verb using suffix -en.
- Build the word **tighten** with letters. Model writing the word.

Practise 10mins

Blending for Reading - Read a Sentence

Teacher writes a sentence on the board.

Children have to read in their head, not aloud, then teacher asks for children to support them in reading as they point to each word in the sentence.

My father adds sugar to his coffee to sweeten it.

I need to tighten my pants with a belt.

Ask the children to swap the -en suffix root word (E.g. **loosen lighten weaken**) and discuss how it changes the meaning.

Apply 5mins

Segmenting for Spelling

Teacher displays a word on whiteboard or IWB. Children change the word to a verb using the -en suffix and spell it out either aloud or written down.

thick - thicken

short - shorten

moist - moisten

sharp - sharpen

dark - darken

Discuss how adding suffix -en changes the meaning of the word.
