

Objective

Learn and practise homophones [there](#) / [their](#) / [they're](#).

Revise

Recall all GPCs learned so far using flashcards.

Teach 10mins

- Teach homophone [there](#). The word '[there](#)' is used when referring to a location or place, and is related by definition and spelling to words '[here](#)' and '[where](#)'. Think of '[there](#)' as a giant arrow pointing to a place, position or direction.
For example; [What is that over there?](#)
- **Decoding** – Explain using mnemonic in Teacher Activities.
- Present the word on the IWB or flashcard [there](#) to read. Model pressing the sound buttons to make the phoneme and model merging phonemes together to blend the word (option to have a different coloured sound button for under the vowel).
- **Encoding** – Explain using mnemonic in Teacher Activities.
- Make a phoneme frame on paper or a whiteboard / IWB to show the children how to build the word [there](#) with letters. Model writing the word.
- **Revise Common Exception Word (tricky word)** - [there](#).

Practise 10mins

Blending for Reading - Read a Sentence

Teacher writes a sentence on the board.

Children have to read in their head, not aloud, then teacher asks for children to support them in reading as they point to each word in the sentence.

[Put your coat over there.](#)

[The book is right there!](#)

Apply 5mins

Segmenting for Spelling - Write a Sentence

Children write their own sentence using the word '[there](#)' using examples from inside the classroom. Children write the sentence either on whiteboards or paper. Teacher and TAs must ensure the application of correct spelling, Common Exception Words and sentence structure.

E.g. [We keep the pencils over there on the desk.](#)
