

Objective

Learn and practise homophones **there / their / they're**.

Revise

Recall all GPCs learned so far using flashcards.

Teach 10mins

- Teach homophone **they're**. The word '**they're**' is a contraction used in place of words '**they**' and '**are**'. When we put the words together in a contraction some letters are left out, so we place an apostrophe. Contractions are covered further in Week 23. For example; **They're going swimming today**.
- **Decoding** – Explain using mnemonic in Teacher Activities.
- Present the word on the IWB or flashcard **they're** to read. Model pressing the sound buttons to make the phoneme and model merging phonemes together to blend the word (option to have a different coloured sound button for under the vowel).
- **Encoding** – Explain using mnemonic in Teacher Activities.
- Make a phoneme frame on paper or a whiteboard / IWB to show the children how to build the word **they're** with letters. Model writing the word.

Practise 10mins

Blending for Reading - Read a Sentence

Teacher writes a sentence on the board.

Children have to read in their head, not aloud, then teacher asks for children to support them in reading as they point to each word in the sentence.

Do you know if they're planning to move?

I do not know if they're coming for dinner today.

Do not worry, they're very friendly people.

Apply 5mins

Segmenting for Spelling - Write a Sentence

Teacher displays sentences on IWB or whiteboard and children rewrite the sentences using the contracted form of 'they are' either on whiteboards or paper. Teacher and TAs must ensure the application of correct spelling, Common Exception Words and sentence structure.

They are going on a holiday soon.

I hope they are going to invite me to the party.

They are over there somewhere.
