

Week 18 – Homophones – there their they're

Progression

un-	dis-	mis-	-s/es	-ies	-ing	-ed	-er
-est	-y	-ly	-ness	-ment	-ful	-less	-en
-le, -el, -al, -il	homophones		contractions			dictionary work and proof reading	

Objectives

Learn homophones [there](#) / [their](#) / [they're](#).

Read and write sentences using sounds from Phases 2 to 5.

Learn Memory Strategies for Spelling

Syllables – listen to how many syllables are in a word and break it down into smaller pieces.

E.g. [September](#) – break the word into [Sep](#) / [tem](#) / [ber](#) instead of decoding individual graphemes as S-e-p-t-e-m-b-er.

Root Words – find the root of the word first.

E.g. [help](#) - the root, [helping](#) - root word with suffix added.

Analogy – are words that help to remember other similar words.

E.g. [would](#), [should](#), [could](#).

Mnemonics – create a sentence to help with remembering the correct spelling of a word.

E.g. [People](#) - [people](#) [eat](#) [orange](#) [peel](#) [like](#) [elephants](#).

Magnetic Letters and Whiteboards

Terminology

Noun – a noun is a person, place or thing.

Verb – a word used to describe an action.

Adjective – a word naming an attribute to a noun, used to describe things. For example; [blue](#) [cold](#) [late](#).

Adverb - a word that modifies a verb, adjective or other adverb and describes the way something is happening. For example; [loudly](#) [neatly](#) [nervously](#).

Prefix – an affix placed before the root word to create a new word.

Suffix – an affix placed after the root word to create a new word.

Singular – one person, place or thing.

Plural – more than one person, place or thing.

Homophones – are words that sound the same as another word but have a different meaning, and often a different spelling.
