

Objective

Learn and practise homophones [where](#) / [wear](#) / [we're](#).

Revise

Recall all GPCs learned so far using flashcards.

Teach 10mins

- Teach homophone [we're](#). The word '[we're](#)' is a contraction used in place of words '[we](#)' and '[are](#)'. When we put the words together in a contraction some letters are left out, so we place an apostrophe to show this.
For example; [Today we're going to the zoo.](#)
- **Decoding** – Explain using mnemonic in Teacher Activities.
- Present the word on the IWB or flashcard [we're](#) to read. Model pressing the sound buttons to make the phoneme and model merging phonemes together to blend the word (option to have a different coloured sound button for under the vowel).
- **Encoding** – Explain using mnemonic in Teacher Activities.
- Make a phoneme frame on paper or a whiteboard / IWB to show the children how to build the word [we're](#) with letters. Model writing the word.

Practise 10mins

Blending for Reading - Read a Sentence

Teacher writes a sentence on the board.

Children have to read in their head, not aloud, then teacher asks for children to support them in reading as they point to each word in the sentence.

[Hurry up, we're going to be late for school!](#)

Apply 5mins

Segmenting for Spelling - Write a Sentence

Children write their own sentence using the word '[we're](#)'. Children write the sentence either on whiteboards or paper. Teacher and TAs must ensure the application of correct spelling, Common Exception Words and sentence structure.

E.g. [In Winter we're planning to go snowboarding.](#)

[We're about to start the game.](#)
