

Week 20 – Homophones – your you're, hear here, to two too, quite quiet quit

Progression

un-	dis-	mis-	-s/es	-ies	-ing	-ed	-er
-est	-y	-ly	-ness	-ment	-ful	-less	-en
-le, -el, -al, -il	homophones		contractions			dictionary work and proof reading	

Objectives

Learn homophones *your / you're, hear / here, to / too / two*.

Compare similar words *quiet / quite / quit*.

Read and write sentences using sounds from Phases 2 to 5.

Learn Memory Strategies for Spelling

Syllables – listen to how many syllables are in a word and break it down into smaller pieces.

E.g. *September* – break the word into *Sep / tem / ber* instead of decoding individual graphemes as S-e-p-t-e-m-b-e-r.

Root Words – find the root of the word first.

E.g. *help* - the root, *helping* - root word with suffix added.

Analogy – are words that help to remember other similar words.

E.g. *would, should, could*.

Mnemonics – create a sentence to help with remembering the correct spelling of a word.

E.g. *People - people eat orange peel like elephants*.

Terminology

Noun – a noun is a person, place or thing.

Verb – a word used to describe an action.

Adjective – a word naming an attribute to a noun, used to describe things. For example; *blue cold late*.

Adverb - a word that modifies a verb, adjective or other adverb and describes the way something is happening. For example; *loudly neatly nervously*.

Prefix – an affix placed before the root word to create a new word.

Suffix – an affix placed after the root word to create a new word.

Singular – one person, place or thing.

Plural – more than one person, place or thing.

Homophones – are words that sound the same as another word but have a different meaning, and often a different spelling.
