

Objective

Learn and practise homophones **see** / **sea**.

Revise

Recall all GPCs learned so far using flashcards.

Teach 10mins

- Teach homophone **see**. The word '**see**' is a verb meaning to perceive or recognise something with your eyes.
For example; **I can see my house.**
- Teach homophone **sea**. The word '**sea**' is a noun meaning a body of salt water smaller than an ocean, and completely or partly surrounded by land.
For example; **I went to the sea on my last holiday.**
- **Decoding** – Explain using mnemonic in Teacher Activities.
- Present the words on the IWB or flashcards **see sea** to read. Model pressing the sound buttons to make the phoneme and model merging phonemes together to blend the word (option to have a different coloured sound button for under the vowel).
- **Encoding** – Explain using mnemonic in Teacher Activities.
- Make a phoneme frame on paper or a whiteboard / IWB to show the children how to build the words **see sea** with letters. Model writing the words.

Blending for Reading - Read a Sentence

Teacher writes a sentence on the board.

Practise 10mins

Children have to read in their head, not aloud, then teacher asks for children to support them in reading as they point to each word in the sentence.

From the top of the lighthouse I can see the seaside!

Segmenting for Spelling - Write a Sentence

Children write their own sentence using the words '**see**' or '**sea**'. Children write the sentence either on whiteboards or paper. Teacher and TAs must ensure the application of correct spelling, Common Exception Words and sentence structure.

Apply 5mins

E.g. My friends and I are going to meet to see a movie together.

I do not like sailing by boat as I get seasick.
