

Homophone - one / won

Lesson 106

Week 22 - Monday

Objective

Learn and practise homophones **one** / **won**.

Revise

Recall all GPCs learned so far using flashcards.

Teach 10mins

- Teach homophone **one**. The word 'one' is a number, and is the lowest cardinal number, amounting to a single unit or item.
For example; **There is only one crayon left.**
- Teach homophone **won**. The word 'won' is a verb and is the past tense version of the word 'win'.
For example; **I won the spelling competition last year.**
- **Decoding** – Explain using mnemonic in Teacher Activities.
- Present the words on the IWB or flashcards **one won** to read. Model pressing the sound buttons to make the phoneme and model merging phonemes together to blend the word (option to have a different coloured sound button for under the vowel).
- **Encoding** – Explain using mnemonic in Teacher Activities.
- Make a phoneme frame on paper or a whiteboard / IWB to show the children how to build the words **one won** with letters. Model writing the words.
- **Revise Common Exception Word (tricky word) - one.**

Blending for Reading - Read a Sentence

Teacher writes a sentence on the board.

Practise 10mins

Children have to read in their head, not aloud, then teacher asks for children to support them in reading as they point to each word in the sentence.

I won the race! I am number one!

Segmenting for Spelling - Write a Sentence

Children write their own sentence using the words 'one' or 'won'.

Children write the sentence either on whiteboards or paper.

Teacher and TAs must ensure the application of correct spelling, Common Exception Words and sentence structure.

E.g. **My dad won the lottery once.**

They grabbed one large donut and two napkins.

Apply 5mins
