

Objective

Learn and practise dictionary work and proof reading.

Revise

Recall all GPCs learned so far using flashcards.

Teach 10mins

- Teach children how to put words in alphabetical order using simple examples. For example; **Apple**, **Bee**, **Car**, **Dog**, **Elephant**.
- Revise the Alphabet Song to remind children of the order of letters if needed.
- Discuss what to do when they encounter words that start with the same letter. Which word comes first?
For example; **sea** **seat** **see**.
Explain that 'a' is before 'e' in the alphabet, so **seat** is going to come before **see**, even with the 't' at the end.
However, **sea** will precede **seat** as it has no more letters after the 'a' whereas **seat** does.
- **Decoding** – Explain using mnemonic in Teacher Activities.
- Present the words on the IWB or flas **blank** to read. Model pressing the sound buttons to make the phoneme and model merging phonemes together to blend the word (option to have a different coloured sound button for under the vowel). Have children put the words in alphabetical order from first to third.
- **Encoding** – Explain using mnemonic in Teacher Activities.
- Make a phoneme frame on paper or show the children how to build the word **abacus** with letters. Model writing the word.

Practise 10mins

Blending for Reading - Yes or No

Teacher writes two similarly spelt words on the board.

Children have to read in their head, not aloud, then teacher says "The word _____ comes before _____."

Children can write yes or no on whiteboards or stick thumbs up or down to either agree (true) with the teachers statement or disagree (false). To make it more challenging, teacher can read words aloud instead of writing on the board.

dream	cream
car	card
ball	balm

Apply 5mins

Segmenting for Spelling

Ask children to put the following words in alphabetical order and rewrite them either on whiteboards or paper. Teacher and TAs must ensure the application of correct spelling.

banana **strawberry** **apple** **blueberry** **avocado** **pear** **cherry**
began **boy** **baby** **better** **birds** **before** **boat** **book** **best** **better** **box**

Discuss with children if they found any particular words difficult to sort and why that might be.
