

Using a Dictionary

Week 24 – Tuesday Lesson 117

Objective

Learn and practise dictionary work and proof reading.

Revise

Recall all GPCs learned so far using flashcards.

Teach 10mins

- Teach children how to use a dictionary to find spellings and definitions.
- Start by focusing on the word you want to search. Then open up the dictionary and look at the page of contents. Locate the first letter of the word you're searching for and go to the corresponding page in the dictionary. Read the entries in alphabetical order and find the word checking letter by letter.
- Examine what information is displayed next to the word. A dictionary will tell you the words pronunciation, its origin, its part of speech and what the meaning of the word is.
- Discuss what to do when children can't find a word. Is it spelt correctly? Have they got the alphabetical order correct?
Some words are easy to misspell such as **argument**. Children should remember learning the suffix **-ment** (Week 13, Lesson 64) and the spelling rule about removing 'e'. It's important that they remember the spelling rules in order to find words in a dictionary.

Blending for Reading

Teacher gives children in pairs a dictionary and writes a word on the board. Ask children to find the word and say what page number it's on. Teacher can write a list of several words for children to find and set up a timer to race against for fun!

Discuss with children if they found any particular words difficult to find and why that might be.

Segmenting for Spelling

Teacher has a secret word in mind, and gives children clues about the words spelling so they can find it in a dictionary. For example;

"The word starts with L"

"My second letter is o"

"My third letter is the same as my second letter"

"My last letter is the same as the first letter of kite".

The secret word is 'Look'!

Children can write notes in order to work out what it is, then find it in the dictionary and tell the teacher what page the word is on.
