

Objective

Learn and practise suffix **-ies**.

Revise

Recall all GPCs learned so far using flashcards.

Teach 10mins

- Teach how to add the **-ies** suffix when changing a root word ending in 'y' to a plural. When a word has a consonant before the 'y', you remove 'y' and add **-ies**.
For example; **one puppy / two puppies**.
- **Decoding** – Explain using mnemonic in Teacher Activities.
- Present the whole words on the IWB or flashcards **one cherry / two cherries** to read. Model pressing the sound buttons to make the phoneme and model merging phonemes together to blend the words (option to have a different coloured sound button for under the vowel).
- **Encoding** – Explain using mnemonic in Teacher Activities.
- Make a phoneme frame on paper or a whiteboard / IWB to show the children how to build the word from singular to plural.
- Build the words **one baby / three babies** with letters. Model writing the word.

Practise 10mins

Segmenting for Spelling

Practise changing words from singular to plural using a phoneme frame and discuss the difference in pronunciation.

Share images and have children spell out words.

one puppy / two puppies

one cherry / two cherries

one baby / two babies

Apply 5mins

Blending for Reading

Practise reading the following sentences using plurals as well as using Common Exception Words.

The two puppies at the farm are so cute.

I like to have two cherries on my cake.

Wordbank

puppies cherries babies activities ladies candies flies families bunnies skies enemies
