

Week 7 – Suffix -ed

Progression

un-	dis-	mis-	-s/es	-ies	-ing	-ed	-er
-est	-y	-ly	-ness	-ment	-ful	-less	-en
-le, -el, -al, -il		homophones		contractions		dictionary work and proof reading	

Objectives

Learn how to add **-ed** suffix to root words.

Read and write sentences using sounds from Phases 2 to 5.

Learn Memory Strategies for Spelling

Syllables – listen to how many syllables are in a word and break it down into smaller pieces.

E.g. **September** – break the word into **Sep** / **tem** / **ber** instead of decoding individual graphemes as S-e-p-t-e-m-b-er.

Root Words – find the root of the word first.

E.g. **help** - the root, **helping** - root word with suffix added.

Analogy – are words that help to remember other similar words.

E.g. **would**, **should**, **could**.

Mnemonics – create a sentence to help with remembering the correct spelling of a word.

E.g. **People** - people eat orange peel like elephants.

Terminology

Noun – a noun is a person, place or thing.

Verb – a word used to describe an action.

Adjective – a word naming an attribute to a noun, used to describe things. For example; **blue cold late**.

Prefix – an affix placed before the root word to create a new word.

Suffix – an affix placed after the root word to create a new word.

Singular – one person, place or thing.

Plural – more than one person, place or thing.

Tense – is a word form that tells us what time something will happen or when it has already happened. Adding certain suffixes to verbs can change their tense.

Present tense – shows that an action or event is currently happening or continually happening in the present. E.g. **I walk to the park**.

Present-continuous tense – shows that an action is happening / continuing at the moment of speaking or planning to happen in the future. E.g. **I am walking to the park**.

Past tense – shows that an action has already occurred in the past. E.g. **I walked to the park**.
