Step 2: Teacher Setup

- a) Add a Teacher by entering their name and valid school email address, then click the red 'Add New Teacher' button. (Complete for every Teacher that will be using Wushka)
- b) Teachers will receive a Welcome email providing them with their own Login Details
- c) Click the red 'Finished. Go to Step 3' button when complete

The screenshot shows the 'Step 2: Teacher Users - Wushka School' interface. On the left, under 'a. Add New Teacher User', there is a form with fields for 'First Name', 'Surname', and 'Email / Username'. The 'Email / Username' field contains 'name@example.com' and has a note: 'Once a username is set it cannot be changed. A username must be a valid email address.' Below the form is a red 'Add New Teacher' button. On the right, under 'b. Teacher Users', there are three identical teacher cards for 'Bernie Guy' with email 'bguy@wushka.co.uk'. Each card has a close button (X). At the top right of the interface are buttons for 'Previous Step' and 'Go to Step 3'. At the bottom is a navigation bar with icons for Dashboard, 1 Settings, 2 Teachers (highlighted), 3 Classes, 4 Students, Overview, Notifications, and Parents.

Step 3: Class Setup

- a) Create a class by giving it a Name (e.g. Class KP), then click Add Class (You will see the class appear in the d: Classes section). Complete for all classes that will be using Wushka
- b) Click, drag and drop a year into each class from the b: School Years list. Then click, drag and drop a Teacher into each class from the c: Teachers list. (All Teachers must be assigned to a class and more than one teacher can be assigned)
- c) Click the red 'Go to Step 4' button when complete.

Step 3: Students Setup

a) To create students, select the class you wish to enter students into.

b) (Option 1) Add each student individually by adding their first name and surname, then click [Add Student](#)

c) (Option 2) Click [Manage Class](#) then  to use the upload tool. This will allow you to add a whole class of students in one go using a template spreadsheet. If you choose to use this option please see the instructions on the following page.

Manage Students

Step 3: Students Setup (Option 2)

a) Click 'Download' to download the template spreadsheet. Then, open the template spreadsheet from your recent downloads. Enter students' first and last names into the appropriate columns. Then, save the file into a folder on your computer and close the file.

b) Click 'Choose File' and select the spreadsheet from the folder you just saved it to. The file name should then appear next to the 'Choose File' button.

g) Click the 'Import' button and the upload tool will close automatically. (Your list of students should now have appeared). Repeat for each class of students.

The screenshot displays the 'Add Whole Class List in 3 simple steps' dialog box. Step 1, 'Download CSV file to use as a template', includes a 'Download' button. Step 2, 'Fill out Student names & upload the saved CSV file', features a 'Choose File' button and the text 'No file chosen'. Step 3, 'Import file to use as the class list', has an 'Import' button. A yellow arrow points from the 'Choose File' button to a Microsoft Excel spreadsheet. The spreadsheet shows a table with columns 'FirstName' and 'LastName' in the first row, and rows 2 through 4 are empty. The background shows a blurred view of the Wushka interface with 'Manage Class' buttons and a student entry form with 'First Name', 'Surname', and 'Add Student' buttons.

And Wushka, You're Complete!

Congratulations, you have now successfully set up your school, teachers, classes and students. You can return to these pages to edit them at any time by logging into this Wushka Program Coordinator Account.

Teachers have now received an email with their own Login Details.
