Suffixes

-s and -es	-ing	-ed
-er	-est	un-

-est Suffixes

est	Drop	Nothing
funniest	funniest *	greatest
greatest	tastiest *	
tastiest	* Change y to i and add est	

Teachers

These readers have been written with rich vocabulary including embedded words that contain suffixes. Discuss the use of suffixes for changing the meaning of words and the spelling rules applied. The text consolidates earlier taught phonics skills and tricky words.

Phase Six - Fiction

1. The Lost Glasses
2. Monkeys and Apes
3. Cat Napping
4. Sailing the Seven Seas
5. Dinner is Served
6. Hopped, Skipped and Jumped
7. The Tennis Players
8. A Nicer Baker
9. The Highest Point
10. The Funniest Scientists
11. The Cutest Pets
12. Running Late

Word Count: 256

“One more idea. How about calculating how salty is the sea?” said Ted. Pip giggled. “Is that food technology or ocean science?” said Pip. “Let’s put it down for both,” said Ted. “Job done. This science project might not win a prize but it sure will be the funniest,” said Pip.

“Pip, what are you working on?” said Ted. “It’s science fair next month. I’m thinking about topics for my entry,” said Pip. “We need to list a few topic ideas by the end of today,” she said.

Pip and Ted kept brainstorming. “This idea might be the best. We could discover how to make the tastiest marshmallows. This would fit into the food technology category,” said Pip.

“How about some ideas for animal biology?” said Pip. “I have a pet cat and a pet dog. We could try to discover why cats purr? Or understand why cats and dogs dislike each other?” said Ted.

“Do you need a science buddy?” asked Ted. “Yes, are you interested? Do you have any exciting and new ideas?” said Pip. “I can suggest a few,” said Ted.

Pip got out her notepad and started scribbling down some ideas. “Name the categories that you are keen on exploring,” she said. “I think the greatest categories are 3D printing, astronomy, animal biology, and food technology,” said Ted.

“A good place to start. How about we design and 3D print a monster or a robot?” said Pip. “Or we could design x-ray vision so that we can see into space,” said Ted.
