

Snail Trails

Have you seen a snail in a garden?
Snails look a bit like a slug with a shell.
Snails are soft with a hard shell on their back.

Snail Trails

A snail's shell protects them. They can pull into their shell as they need to.

Snail Trails

Snails like to go to the dark and damp spots in the garden.

Snail Trails

They like the rain. Snails like ponds.
They like to get wet.

Snail Trails

Snails like to snack on green plants in the garden.

Snail Trails

Snails are nocturnal. They like to come out at night.

Snail Trails

Can you spot a snail trail in the garden?
Check that you do not step on a snail.
Look under a rock or a log and you might just see a snail!
